Abrir

 Executar como administrador

Solucionar problemas de compatibilidade

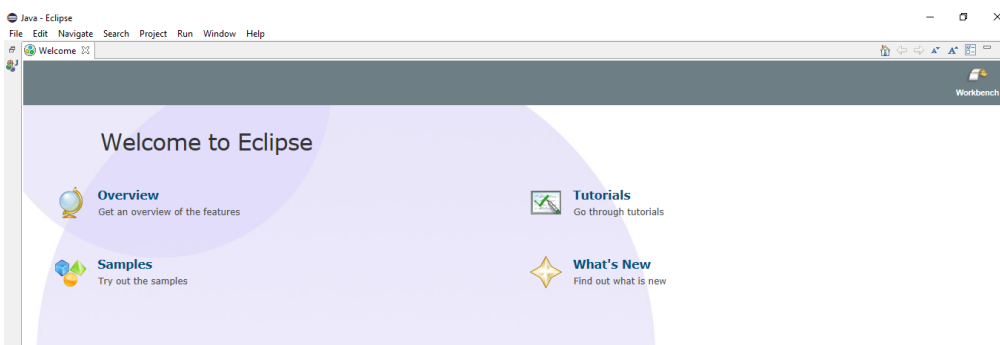

Fixar na Tela Inicial

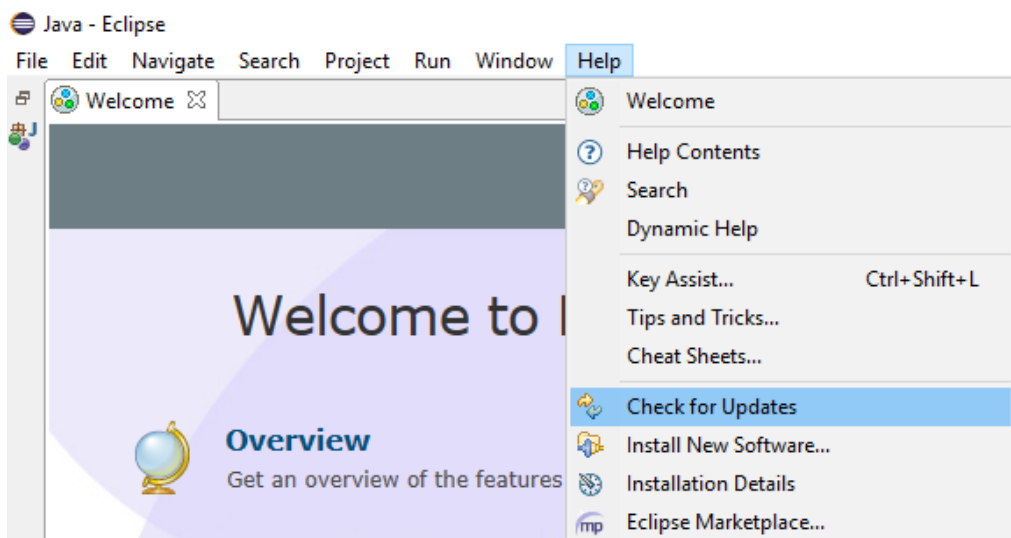

Set workspace folder as wanted.

Open Eclipse

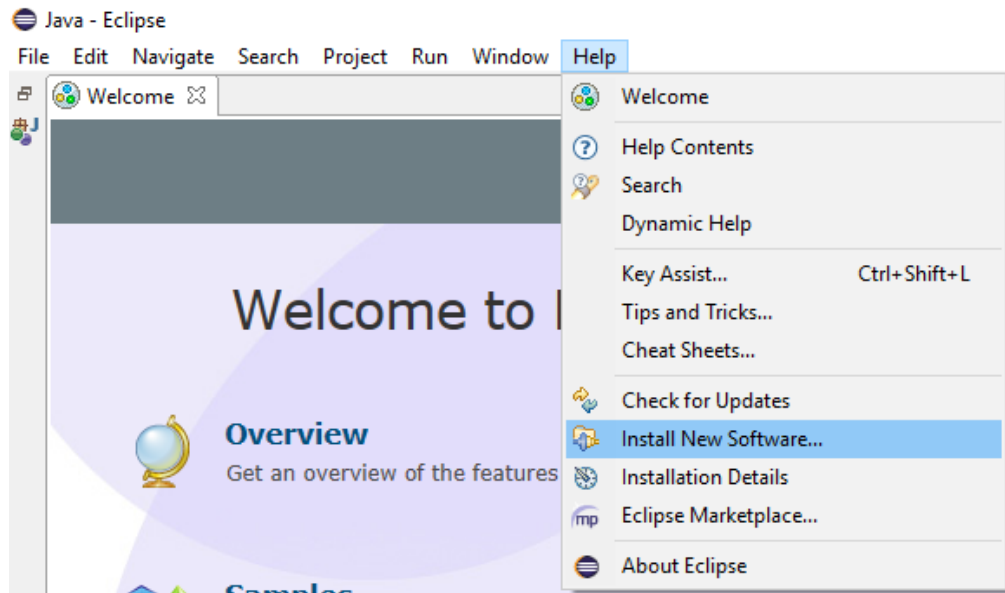

Select "Check for Updates"

# INSTALL HANA COMPONENTS FOR ECLIPSE

Select “Install New Software”

Access link for additional sap hana downloads:

Luna - <https://tools.hana.ondemand.com/luna/>

Select following softwares then click on “Next”.

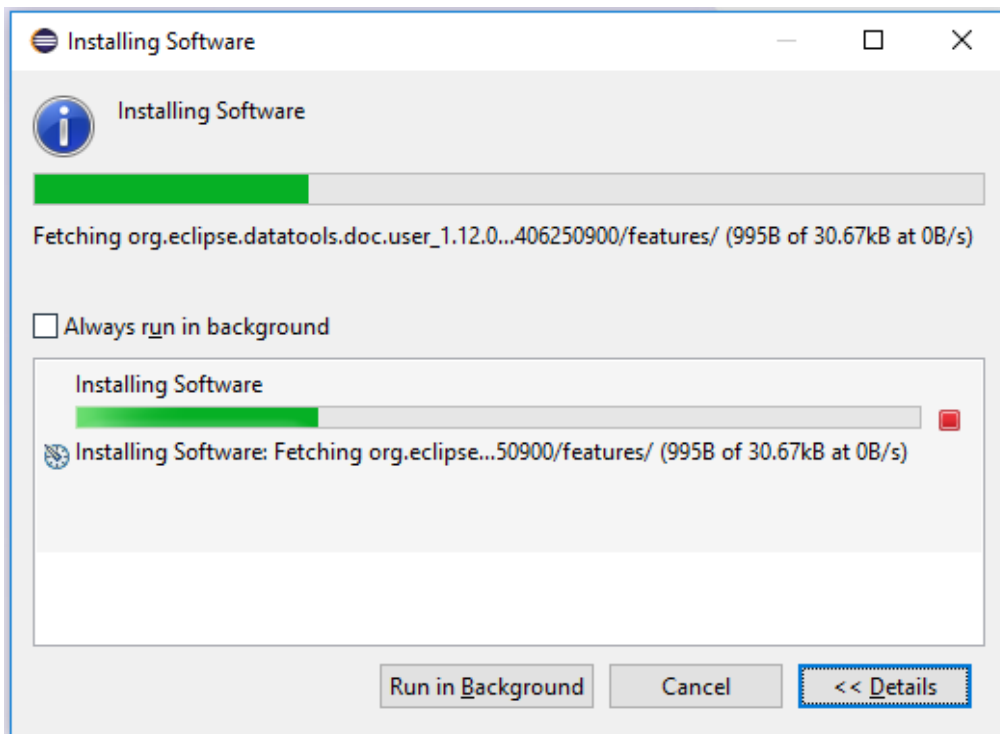

Review

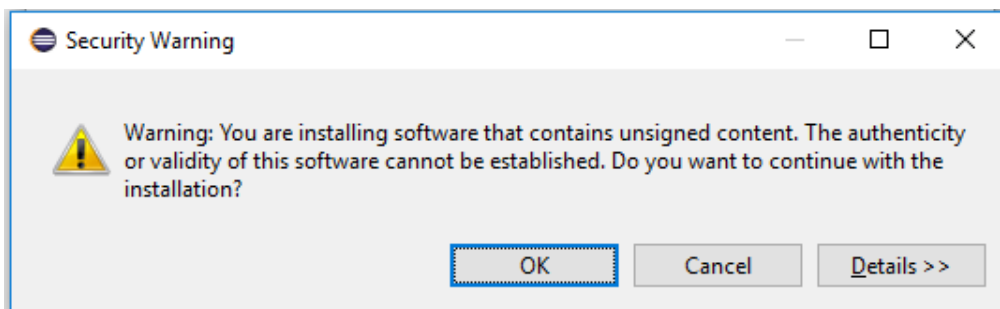

Accept the terms.

Wait for completion of installation

If the message below shows up, just skip it, pressing ok.

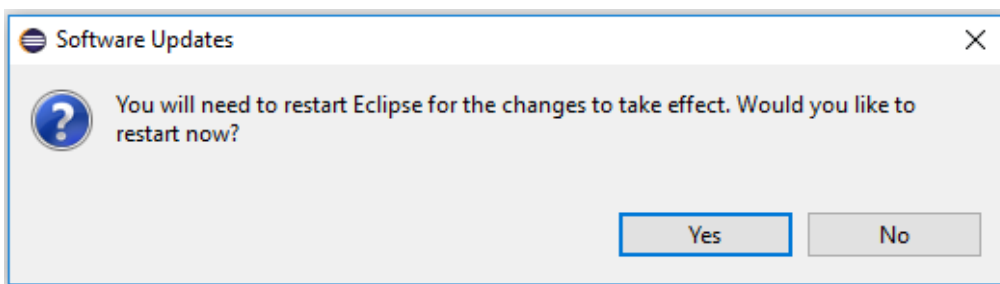

If security message shows up, allow it.

- ☒ Redes públicas, como as de aeroportos e cafeterias (não recomendado porque essas redes sempre têm menos ou nenhuma segurança)

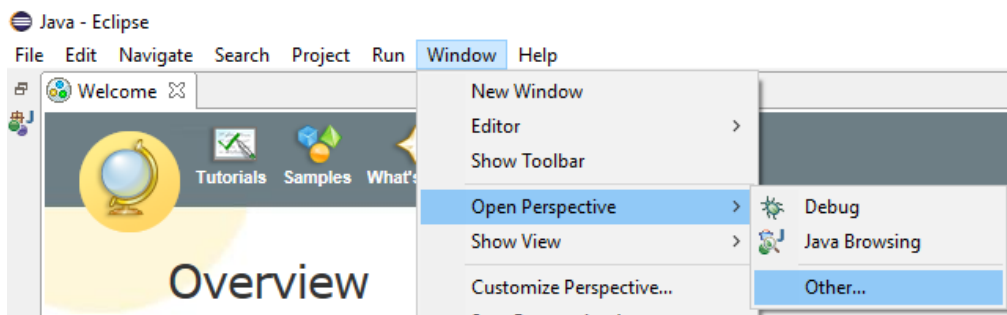

[Quais são os riscos de permitir um aplicativo através de um firewall?](#)

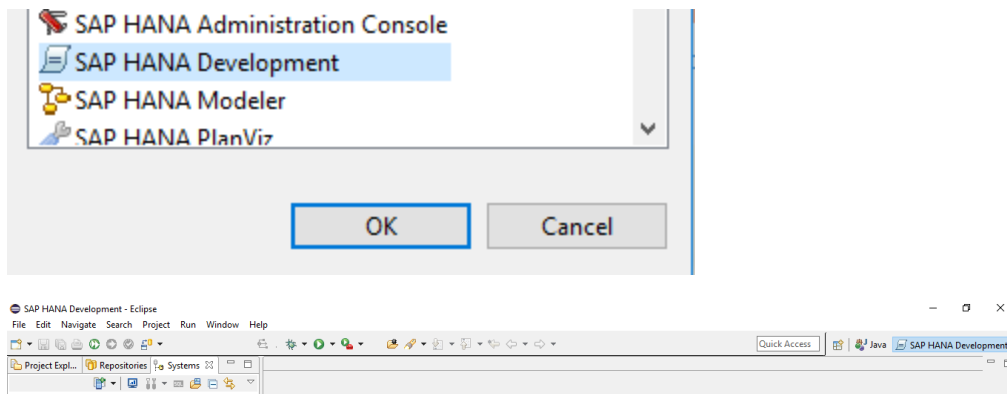

Restart Eclipse after installation has completed.

After restarting, go to:

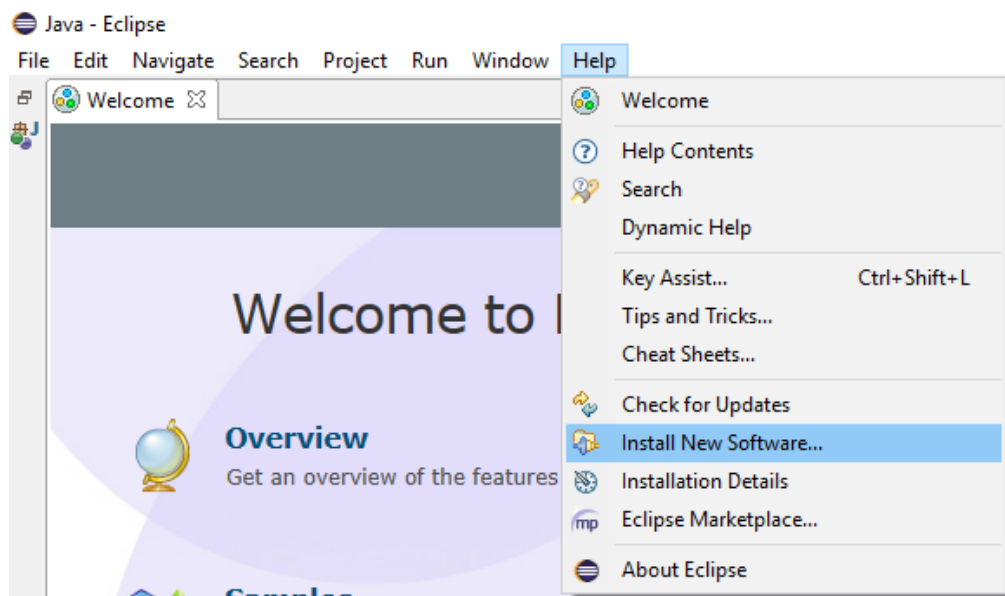

Then.

# INSTALL BW COMPONENTS FOR ECLIPSE

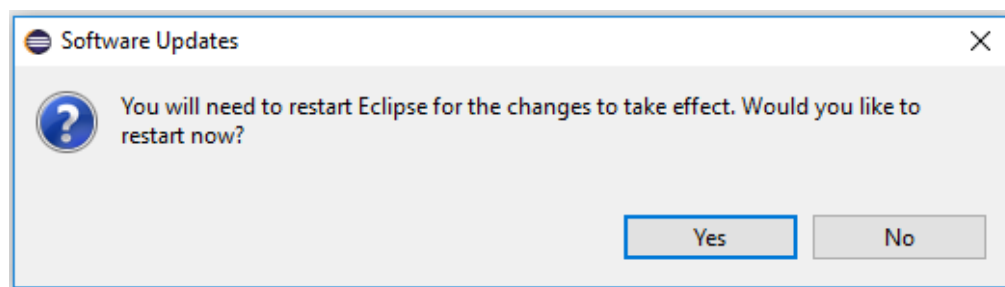

Select “Install New Software”

Access link for additional sap hana downloads:

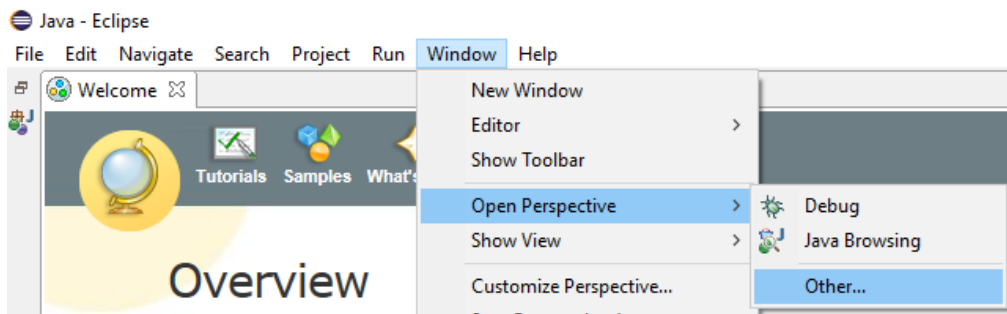

Luna - <https://tools.hana.ondemand.com/luna/>

Select following softwares then click on “Next”.

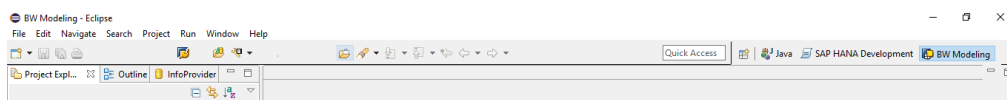

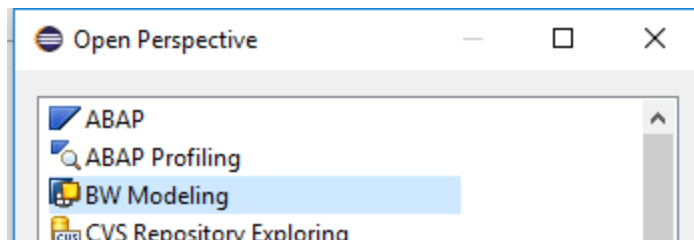

After restarting, go to:

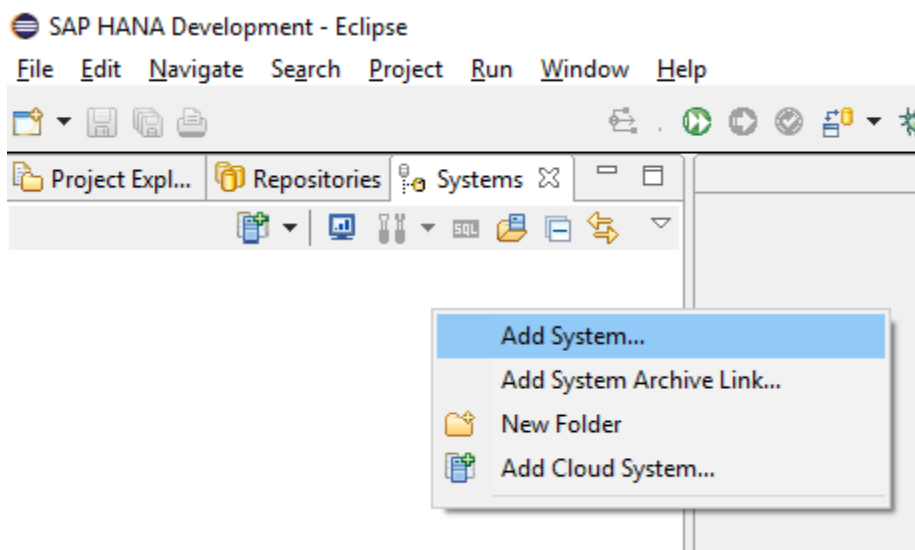

Then select BW perspective.

## ADD SYSTEM FOR HANA DB

In SAP HANA Development perspective, in “Systems” section:

Insert data as below.

The screenshot shows the 'Specify System' dialog box in the SAP HANA Development - Eclipse interface. The dialog box has a title bar with the SAP HANA logo and the text 'System'. Below the title bar, the text 'Specify the host name and instance number of the system.' is displayed. The dialog box contains several fields and options: Host Name: hana.rsolution.inf.br; Instance Number: 93; Mode: Single container (unselected), Multiple containers (selected), Tenant database (selected), System database (unselected); Name: S4H; Description: treinamento; Locale: português (Brasil).

System

**Specify System**

Specify the host name and instance number of the system.

Host Name: hana.rsolution.inf.br

Instance Number: 93

Mode:

- ☐ Single container
- ☒ Multiple containers
  - ☒ Tenant database
    - Name: S4H
  - ☐ System database

Description: treinamento

Locale: português (Brasil)

Insert user and password according to the credentials given.

In first logon, change the password.

Change Password

To change the password for user CBASTO, enter and confirm a new password
